SDG 11.4: Sustainable Practices

SDG 11 – Indicator 11.4.6 Pedestrian priority on campus

Universitas Sriwijaya (UNSRI), in alignment with Sustainable Development Goal (SDG) 11: Sustainable Cities and Communities, is committed to creating an inclusive and sustainable campus environment by prioritizing pedestrian accessibility. To support this vision, UNSRI has developed infrastructure such as sidewalks, guiding blocks, and ramps for people with disabilities, and walk parks while also ensuring safety, comfort, and accessibility for all members of its academic community. These facilities are strategically spread throughout the campus, allowing students, staff, and visitors to navigate the university easily and securely, regardless of their physical abilities. By promoting walking as an eco-friendly mode of transportation, UNSRI not only reduces its environmental impact but also fosters a culture of inclusivity and health-conscious living within its community.
