SDG 1
No Poverty

1.3. University anti-poverty programmes

Universitas Sriwijaya provides scholarships for underprivileged students, carries out community development programs and other support to local governments in order to alleviate poverty in education access, promoting skills and sustainable livelihoods are the core focus areas of these programs (SDGs Goal 1: No Poverty) thus reiterating university's commitment for social and economic transformation & equity among students, lecturers and academic staff in all dimensions.

SDG 1 – Indicator 1.3.1. Bottom financial quintile admission target

Universitas Sriwijaya is committed to expanding educational access for households in the bottom 20% income bracket through the Bottom Financial Quintile Admission Program. To achieve this, Universitas Sriwijaya has taken several steps, including providing admission pathways through scholarships for underprivileged students and invitation-based admissions. Additionally, several scholarship options are available after students are enrolled and identified as financially disadvantaged. Information about these scholarships can also be accessed by students publicly, both on websites within Universitas Sriwijaya and on other websites affiliated with Universitas Sriwijaya or external websites.
