Climate Action

13.2 Low-carbon energy use

SDG 13 – Indicator 13.2.2 Low-carbon energy tracking

Total energy used : 11171 GJ

Total energy used

From low-carbon sources : 4 GJ

In 2023, Universitas Sriwijaya formed a research and development partnership with CIFOR and ICRAF, two organizations focused on forestry and agroforestry. This collaboration aims to improve Indonesia's environmental sustainability. CIFOR is a global non-profit promoting human well-being, environmental conservation, and equity. ICRAF is a research institution dedicated to science-based solutions in the same areas.
