

15.2 – Events about sustainable use of land SDG 15 – Indicator 15.2.4 Educational programmes on ecosystems

## NATIONAL WEBINAR ON ENVIRONMENT – BEM MIPA UNSRI 2024

National Education Webinar on the Environment at the National Level was held which was held by the Social Service of BEM KM, Faculty of Mathematics and Natural Sciences, Sriwijaya University online on the zoom meeting platform.

This webinar has the theme "Our Land, Our Future: Get Ready to be The Next Generation of Restoration" which aims to commemorate World Environment Day and increase public understanding and awareness about handling critical land, desertification and drought resistance as well as encouraging real action which must be done, especially by the younger generation, in order to become pioneers of restoration. This activity presented resource persons, namely Drs. Ade Palguna Routeka, Head of the Human Resources Extension and Development Agency (BP2SDM) from the Ministry of Environment and Forestry. Drs. Ade Palguna presented material on environmental conditions, land restoration, greenhouse gas emissions in Indonesia and the role of the younger generation in saving the environment and environmental education.

This event was open to the public and free and was attended by 100 students from various universities in Indonesia who together held discussions while playing interactive quizzes. It is hoped that with this activity students can increase
