Quality Education

### 4.3 Lifelong learning measures

#### SDG 4 – Indicator 4.3.4 Education outreach activities beyond campus

Education is a right for all, and to realize this, Universitas Sriwijaya, through the implementation of the three pillars of higher education (*Tridharma Perguruan Tinggi*), provides grants related to community service, such as the Adopted Village Program and Village Lectures. The goal is to ensure that education reaches all segments beyond the campus. The mentoring process is not only carried out with different themes each year but also includes some activities that are sustained annually. This approach demonstrates Universitas Sriwijaya's commitment to making education accessible to all sectors of society beyond the university campus.
