Affordable and Clean Energy

7.2 University measures towards affordable and clean energy

SDG 7 – Indicator 7.2.1 Energy-efficient renovation and building

Peresmian The Gade Creative Lounge: Langkah Unsri Menuju Renovasi Ramah Energi

With assistance from Pegadaian Wilayah III Palembang, Universitas Sriwijaya (Unsri) has opened The Gade Creative Lounge at the Indralaya Campus Library. The lounge was created as part of a collaborative agreement that prioritizes sustainable and energy-efficient practices with the goal of improving student learning and creativity. The Gade Creative Lounge complies with Universitas Sriwijaya's policy to guarantee that new construction projects promote energy conservation and offer teachers and students environmentally conscious environments by incorporating energy-efficient upgrades into the design. A dedication to lowering energy usage in academic institutions was demonstrated by the renovation's inclusion of upgrades in line with energy-saving guidelines.

Prof. Dr. Ir. M. Said, M.Sc., Vice Rector for Planning and Cooperation at Unsri, thanked PT Pegadaian for their ongoing assistance in advancing high-quality education through sustainable infrastructure during the launch event. The collaboration supports Unsri's overarching goals for energy-efficient campus renovation projects and is a crucial step in creating an academic atmosphere where sustainability and efficiency are valued. Furthermore, by giving ten exceptional kids educational aid, Pegadaian increased the lounge's social impact by creating an environment that encourages academic success and is also environmentally conscious.
